Class: _____

Dreamweaver CS6 Unit C Skills Review
No project files are provided. The solution file is the index.html page under the blooms folder.

1. Answers will vary slightly, but could include the following: use white space effectively, limit multimedia elements, keep it simple, use an intuitive navigation structure, apply a consistent theme, and be conscious of accessibility issues.
2. Verify that the head content is created with the following keywords: Blooms & Bulbs, garden, plants, nursery, flowers, landscape design, and greenhouse.
3. Verify that the following description is inserted: *blooms & bulbs is a premier supplier of garden plants for both professional and home gardeners.*
4. Verify that the background color is set to white.
5. Verify that the hyphens in the current navigation bar are replaced with a split vertical bar separated by a space on either side to separate the items.
6. The following text should appear: *blooms & bulbs Hwy 43 South Alvin, Texas 77511 (555) 248-0806*
7. Verify that links are added as follows: Our Plants to plants.html; Tips to tips.html; Newsletter to newsletter.html; Home to index.html; Workshops to workshops.html
8. Verify that an email link is created under the telephone number
9. Verify that the horizontal rule width is 70% of the window width.
10. Verify that all links work correctly and that the following text appears at the end of the paragraph: *We are happy to deliver or ship your purchases.*
11. The revised index page appears as shown in Figure C-26.
